

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BIENNIAL REPORT.

STATE OF OREGON, TREASURY DEPARTMENT, }
SALEM, January 1, 1897. }

*To Honorable H. R. Kincaid, Secretary of State,
Salem, Oregon —*

DEAR SIR: I have the honor to herewith transmit to you, and through you to his excellency, the governor, my report of the transactions of the treasury department for the biennial term ending December 31, 1896, showing, in detail, the receipts and disbursements of the department, the balances remaining in the various funds, the present indebtedness of the state, the amount of taxes due from the several counties, deposits made by foreign insurance companies doing business in the state, abstracts of loans made from the various trust funds, and other matters pertaining to the finances of the state.

Under the act approved February 25, 1895, providing for a two per cent tax on net premiums collected by insurance companies doing business in this state, I have, during the past two years, collected the sum of \$17,973.45. The act provides that these collections should be paid into the common school fund principal. I would most respectfully suggest that the act be so amended as to provide that this tax shall be paid into the general fund, thus making it available to meet the current expenses of the state government.

I would also call your attention to the present status of state warrant No. 9,372, drawn by the secretary of state on the eastern Oregon insane asylum fund, in the sum of \$25,000, and indorsed by me as not paid for want of funds under date of December 11, 1894. Having been enjoined from paying the same I would ask you to urge upon the legislative assembly such action as will in some manner, dispose definitely of the matter.

During the past two years warrants on the swamp land fund to the amount of \$35,794.47 have been presented for payment. Having no funds available for their payment they were so indorsed. There appears little prospect of the department being able to pay these warrants in the near future, the receipts from sale of swamp lands being very small at the present time.

Very respectfully, your obedient servant,

PHIL. METSCHAN,
State Treasurer.
